1 Introduction

1.1 Install and start SOPAS Engineering Tool

Download the latest SICK SOPAS Engineering Tool (SOPAS ET) from www.sick.com.
 Install and start SOPAS ET.

Figure 1: Install and start SOPAS Engineering Tool

1.2 Search for, find and connect to PGT-13-S devices

- 1 Click on "Search devices" to search for PGT-13-S which are available in your network.
- 2 By clicking on the arrow on the left side of the corresponding PGT-13-S device, the version, serial number and MAC Address can be checked.
- 3 Double-click on the selected PGT-13-S to be updated.

Figure 2: Search for, find and connect to PGT-13-S devices

1.3 SICK Device Driver (SDD) not installed?

- 1 If the corresponding SDD is missing, a "Device driver not installed" window will appear. In this case, please select "OK".
- 2 Install the device driver.
- 3 Double-click on the PGT-13-S to be updated to start the Updater and Password Manager Utilities.

Figure 3: SICK Device Driver (SDD) not installed?

1.4 Installing the SICK Device Driver (SDD)

1 SDD may be installed by searching online or by selecting an offline file.

The offline file is also part of the update package provided for the PGT-13-S devices, under www.sick.com.

Figure 4: Installing the SICK Device Driver (SDD)

2 Updater

2.1 Introduction

Figure 5: Updater

The Updater Utility enables you to execute offline PGT-13-S software updates. The update package may be downloaded from www.sick.com, located under the PGT-13-S product.

The package may include important frontend, backend and/or FPGA implementation relevant improvements or bug fixes.

Please ensure, that the SDD corresponds to your actual PGT-13-S version.

2.2 Executing the update 1/5

- 1 Click on the login button to log in to "Authorized Client" user level.
- 2 Choose "Authorized Client" and enter corresponding password. Default password may be found in the instruction manual (8026784).
- 3 Click "Login".
- 4 After successful login, ensure that the user level has changed to "Authorized Client".

3 Password manager

3.1 Introduction

Figure 11: Password manager 1/2

The Password Manager Utility enables you to manage the password for user level "Authorized Client", which is used only in case of software updates (see previously presented Updater).

This includes changing the current or recovering lost/forgotten password.

CAUTION

As the operating instruction 8026784 states, the default password for "Authorized Client" must be changed during initial commissioning!

4 License manager

4.1 Access the Software License Manager

The Software License Manager is required only, if the Emulator Mode (or other modes) must be activated.

It can be reached, by accessing the PGT-13-S' graphical user interface over a webbrowser.

Please navigate to "Settings" (1), "License Manager" (2) and open the License Manager (3).

SICK PGT-13-S	SETTINGS		Help

License activation

Figure 19: License activation

4.2 Activate a License

The PGT-13-S supports only offline, file-based license transfer processes.

The overview page provides you a rough overview of the required steps to activate a license.

Click "Next" to start thefirst step.

Figure 20: Activate a License

4.2.1 Step 1 – Get Context File

The current license context must be generated and saved locally on your computer or on a USB-Stick.

Click on "Save Context File" and save the generated file. Once the file has been generated, button "Next" will become available.

		LICENSE MANAGEF	<
Overview	Get Context File	Get License Update File Install License Update File Confirm Transfer	
		Get Context File	
		1. Click "Save Context File" and save the "Context File" to your USB-	stick
		2. Take USB stick to a PC connected to the internet	SUCK
		Follow the instructions on the PC connected to the internet	
Cancel			Back

Figure 21: Get Context File

4.2.2 Step 2 – Get License Update File

- 1. The License Update File is generated by the SICK License Server, based on the generated context file from Step 1.
- 2. Navigate to https://license.sick.com/index.php and enter your ticket number received from SICK. It must be a 5x5 character long ticket number.

My Licenses

Figure 27: Confirm Transfer 2/3

A confirmation page must appear. If not, please contact SICK support! This concludes the license activation process!

By clicking on "OK", you will be navigated back to the list of activated and/or not yet activated licenses, represented by your Ticket and seen by the SICK License Server.
