

deTec Core Ex II 3GD / deTem Core Ex II 3GD

SAFETY IN EXPLOSIVE ATMOSPHERES

Safety light curtain, Multiple light beam safety devices

SICK
Sensor Intelligence.

RUGGED AND RELIABLE – EVEN IN EXTREME CONDITIONS

In industries with explosion-hazardous areas, a single spark can be disastrous. The components used in these environments must therefore be particularly rugged and reliable in order to meet the strict explosion protection requirements.

Explosion-hazardous areas are governed by particularly stringent safety regulations and standards. People and systems must never be placed at risk. Planners and operating entities must therefore get to grips with explosion protection before establishing new systems or converting them. They must provide evidence that explosion protection measures have been taken and the relevant standards have been observed. For this reason, the ruggedness and reliability of the components play an important role in terms of safety and productivity.

The deTec Ex II 3GD safety light curtains and the deTem Ex II 3GD multiple light beam safety devices from SICK meet the requirements of the ATEX guidelines for gas: II 3GD Ex nA op is IIB T4 GC X, and ATEX for dust: II 3GD Ex tc IIIB T135°C Dc. Both products provide maximum reliability and a very high level of safety for employees – even in explosive environments.

Certification with the highest protection classes

Measurement, detection, identification, protection: In addition to a wide range of solutions which are perfectly suited to use in explosion-hazardous areas, SICK also offers advice and expertise from certified experts.

Ensure safety on all levels

Compliance with the ATEX guidelines for use in explosion-hazardous areas ensures maximum reliability and a very high level of safety for your employees.

Save time and money

Easy mounting, installation and commissioning in your systems thanks to the alignment quality display using LEDs, plus standardized connectivity and accessories.

New opportunities for more productivity

Reduce downtimes and increase machine availability thanks to the exceptional ruggedness and reliability of the product components – even in explosion-hazardous areas.

Product description

Rugged and reliable safety technology is very important in industries with explosion-hazardous areas. A single spark can be disastrous. With the special version of the deTec4 Core Ex II 3GD safety light curtain, SICK is ensuring compliance with the high safety requirements in explosive areas. It fulfills the requirements of the ATEX guidelines for

use in explosion-hazardous areas (ATEX for gas: II 3G EX and ATEX for dust: II 3D Ex). Thanks to the high resistance and reliability, the safety light curtain is particularly well-suited for use in tough industrial settings. The deTec4 Core Ex II 3GD offers maximum reliability and very high safety for employees, even in explosive atmospheres.

At a glance

- ATEX for gas:
II 3G EX nA op is IIB T4 GC X
- ATEX for dust:
II 3D Ex tc IIIB T135 °C Dc
- Innovative bracket
- No blind zones
- Automated calibration of the protective field width
- LED alignment and output display
- Standardized connectivity: M12 male connector, 5-pin connection, compatible with Flexi Loop
- Enclosure ratings: IP65 and IP67

Your benefits

- Uniform housing and accessory concept for standard and special industrial environments saves time and money when planning systems
- Innovative bracket concept for easy mounting saves installation time and costs
- No blind zones for very high flexibility and space-saving machine design
- Quick installation thanks to integrated LED display and automated calibration of the protective field width save time and money
- Standardized connectivity for Flexi Loop integration saves time and money when it comes to installation
- Enclosure ratings IP65, IP67 and temperature resistance offer long sensor life times and therefore even more efficiency

SICK AT A GLANCE

SICK is a leading manufacturer of intelligent sensors and sensor solutions for industrial applications. With more than 8,800 employees and over 50 subsidiaries and equity investments as well as numerous agencies worldwide, SICK is always close to its customers. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents, and preventing damage to the environment.

SICK has extensive experience in various industries and understands their processes and requirements. With intelligent sensors, SICK delivers exactly what the customers need. In application centers in Europe, Asia, and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes SICK a reliable supplier and development partner.

Comprehensive services round out the offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

That is “Sensor Intelligence.”

Worldwide presence:

Australia, Austria, Belgium, Brazil, Canada, Chile, China, Czech Republic, Denmark, Finland, France, Germany, Great Britain, Hungary, Hong Kong, India, Israel, Italy, Japan, Malaysia, Mexico, Netherlands, New Zealand, Norway, Poland, Romania, Russia, Singapore, Slovakia, Slovenia, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, Turkey, United Arab Emirates, USA, Vietnam.
