EASILY TRANSFER SAFETY DESIGNER CONFIGURATIONS

SICK is offering an efficient addition to the Safety Designer Engineering Tool, namely the user-friendly Safety Configuration Deployment software. It makes it possible to quickly and easily multiple configurations already created in Safety Designer, to update them and to transfer them to safety devices. This increases efficiency, especially in series production – both during commissioning of the machine and during maintenance. Transferring the configuration is intuitive via a USB interface or Ethernet. Safety Configuration Deployment can also be easily integrated into automated processes.

Thanks to the interplay of Safety Configuration Deployment and the Safety Designer configuration software, configurations can be multiplied very easily.

YOUR ADVANTAGES AT A GLANCE

Intuitive operation, quick transfer

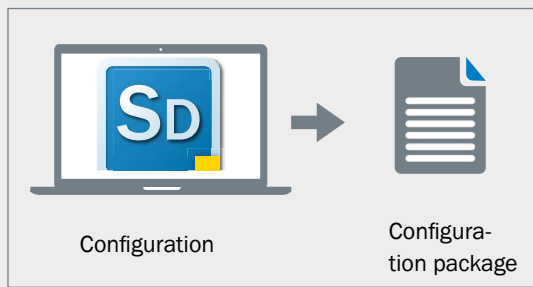

Easy to integrate into automated processes

Supports standard interfaces and platforms

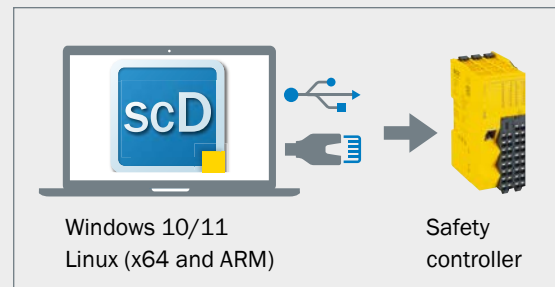

TRANSFERRING A CONFIGURATION

Safety Designer

Step 1: Create and verify a configuration in Safety Designer. Then save the configuration package.

Safety Configuration Deployment

Step 2: Transfer the verified configuration to the safety controller with Safety Configuration Deployment.

READY FOR USE

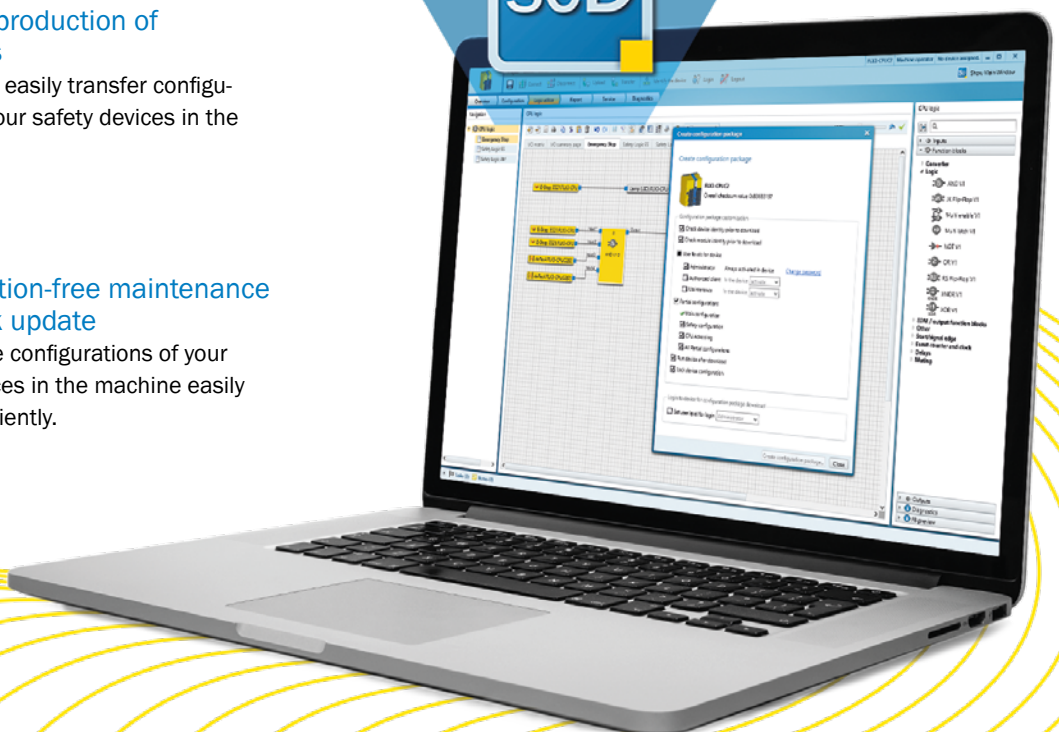

In series production of machines

Quickly and easily transfer configurations to your safety devices in the machine.

Manipulation-free maintenance and quick update

Updates the configurations of your safety devices in the machine easily and conveniently.

SICK AT A GLANCE

SICK is a leading manufacturer of intelligent sensors and sensor solutions for industrial applications. With more than 11,900 employees and over 50 subsidiaries and equity investments, as well as numerous international agencies, SICK is always close to its customers. An extensive range of products and services creates the ideal basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

SICK has extensive experience in various industries and understands their processes and requirements. With intelligent sensors, SICK delivers exactly what the customers need. In application centers in Europe, Asia, and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes SICK a reliable supplier and development partner.

Comprehensive services round out the offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

That is “Sensor Intelligence.”

Worldwide presence:

Australia, Austria, Belgium, Brazil, Canada, Chile, China, Czech Republic, Denmark, Finland, France, Germany, Great Britain, Hungary, Hong Kong, India, Israel, Italy, Japan, Malaysia, Mexico, Netherlands, New Zealand, Norway, Poland, Romania, Russia, Singapore, Slovakia, Slovenia, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, Turkey, United Arab Emirates, USA, Vietnam.
