

Upgrade services

Reliable and effective replacement

MODERNIZATION

SICK
Sensor Intelligence.

Product description

When modifying systems or replacing components after many years of use, retrofit solutions from SICK can extend the service life of the system and provide a cost-effective alternative to purchasing new equipment. The experienced technicians at SICK simply and quickly integrate upgrade kits into the system that are specifically tailored to the application, with minimum system downtime. Using SICK experts to modify existing systems safeguards high performance and increases the efficiency of existing systems.

At a glance

- Selection of the right upgrade kit
- Coordination of the replacement service in consultation with the customer
- Mechanical and electrical integration, including parameterization
- Functional testing and documentation of the modifications implemented
- Briefing of operating personnel

Your benefits

- Reliable selection of the upgrade kit: customized consultation with experts from SICK
- Fast and efficient: minimum downtime during the conversion process
- Correct integration and parameter setting: SICK-qualified technicians worldwide
- Easy integration: all hardware and services from one source
- Safe and controlled: system conversions are documented in the service report

- **Product area:** Industrial Safety

Documentation	Type	Part no.
Upgrade service PLUS, retrofit LVU, LVS, AGS (service)	Upgrade service LCUR1-411	On request
Upgrade service PLUS, retrofit PLS (service)	Upgrade service PLS/S3000	On request

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
