

Web training

Worldwide, interactive and efficient

TRAINING AND EDUCATION

SICK
Sensor Intelligence.

Product description

With web-based training and e-learning courses, SICK offers its customers another innovative way to acquire knowledge about SICK products and services. In a WebTraining course, participants learn via the internet at their workplace. Experts from SICK present an informative overview about the topic via the Internet. When signing up for a WebTraining course, participants receive the access information for the virtual SICK classroom via e-mail. Participants can then view the presentation by the trainer and communicate with the trainer and the other students via telephone conference or chat. Technical requirements include a computer with Internet access and a telephone.

At a glance

- Customer-specific and standard training programs via the Internet
- Qualified trainers
- Interactive learning method
- Practical training
- Structured and customer-specific training documentation

Your benefits

- Up-to-date content: the latest information about a topic is presented to participants
- Worldwide availability: training is available anywhere and at any time
- Time and cost savings: no travel costs
- Efficient and innovative: easily available and uses online learning methods
- Interactive and customer-oriented: active exchange of information via the Internet

- **Training format:** Web-based training

Duration	Short description	Type	Part no.
2.5 h	Contains the following modules: Basics, preventive protection, equipment for use in hazardous areas, repair and testing	Explosion Protection Complete bundle	1614115
45 min	Marking of devices used in explosion-hazardous areas	Explosion protection equipment for use in hazardous areas	1614113
	Ordinances on repair work which, if complied with, would have prevented the accident	Explosion protection repair and testing	1614114
	Parameters for evaluating the risk of explosion, prevention of active sources of ignition	Preventive explosion protection	1614112

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
