

UE43-2MF

Optimal monitoring of safety switches and emergency stop push-buttons

SAFETY RELAYS

SICK
Sensor Intelligence.

Technical data overview

Safety level	PL e, SIL3 SILCL3
Applications	Evaluation unit
Compatible sensor types	Safety command devices Safety switches
Sensor monitoring	Discrepancy monitoring Sequence monitoring Cross-circuit detection
Typical response time	25 ms
Housing width	22.5 mm

Product description

The UE43-2MF safety relay monitors safety switches and emergency stop pushbuttons via cross-circuit detection, sequence monitoring, and discrepancy time monitoring. The safety relay provides both a manual and an automated reset.

At a glance

- Evaluation unit for emergency stop pushbuttons and safety switches
- Cross-circuit detection and sequence monitoring at the dual-channel input signal
- Discrepancy time monitoring is possible
- 2 safety outputs, 1 application diagnostic output
- Manual or automated reset
- External device monitoring (EDM)
- Coded version for all slots

Your benefits

- Complete monitoring and evaluation of sensors
- The sequence monitoring takes over the evaluation of non-contact safety switches
- Fast diagnostics via status information reduces downtime
- Fast, tool-free exchange via coded, plug-in screw-type terminals
- Combines the advantages of classic relays and easy circuitry

Fields of application

- Evaluation unit for emergency stop pushbuttons and safety switches

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
