

SICK Safety Assistant App

Intuitive, smart and always at hand

DIGITAL SERVICES FOR INTEGRATION

SICK
Sensor Intelligence.

Technical data overview

Language	German English
Application	Visualization of diagnostic and configuration data
Supported products	deTec4 deTec4 Ex II 3GD deTec4 HG deTem2 Core A/P deTem4 A/P deTem4 Core A/P deTem4 LT Muting A/P scanGrid2
Supported end devices	iOS (version 14 or higher), Android (version 9.0 or higher)

Product description

The SICK Safety Assistant app enables comprehensive condition diagnostics of your safety sensors easily on site, even if the sensor has no supply voltage. Position your smartphone or tablet with the installed app at the NFC logo of the sensor and quickly get an overview of technical data, the status of the beams, the error history, and detailed shutdown analysis. The app also helps configure your sensors. With the SICK Safety Assistant, you have all your information at hand at any time.

At a glance

- Innovative NFC technology
- Mobile diagnostic and device information available at any time
- Exportation of PDF reports
- DIP switch assistant for deTec and deTem
- Clone function for configuration of scanGrid2
- Compatible with iOS and Android

Your benefits

- Mobile on-site monitoring of your safety sensors
- Reduce downtime with the transparent condition display of your sensors in the app
- Share and document all reports as PDFs as well
- Save time and money during configuration and diagnostics
- You can download the app for free from the Apple App Store or Google Play Store
- Secure wireless communication that harmonizes with your industrial environment

Fields of application

- Visualization of diagnostic and configuration data
- Can be used for deTec4, scanGrid2 and all deTem A/P products

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
