Product, system, and software trainings
TRAINING AND EDUCATION

Product description

The user trainings from SICK impart target group-specific knowledge - for efficient and optimally adapted application of the products used. Sensors, sensor systems, software or services can be the focus of the trainings. The experts from SICK teach trainings based on practical experience and provide extensive information about a wide range of functions up to and including fault diagnosis. The makes it possible for customers to develop optimal application solutions. Trainers adapt courses flexibly based on individual needs of the participants.

At a glance

- Diverse practical training based on the broad and innovative product range from SICK
- Customer-specific and standard training programs on-site, at SICK, or via digital media
- Qualified trainers
- Basic and advanced courses
- Structured training documentation
- Issue of a certificate

Your benefits

- Optimal and efficient use of products with practical training
- Be able to eliminate faults quickly and therefore minimize downtime
- Optimal transfer of knowledge thanks to appropriate didactic methods
- Easy transfer of practical knowledge due to comprehensive training documents with example applications
- Up-to-date knowledge: overview of current trends and topics
- Training flexibility: customized training on the customer's site, at SICK's premises, or via digital media
- Global expertise: experienced trainers who speak the customer's local language

Short description	Range of services	Training format	Class size	Duration	Type	Part no.
Function and application of the S3000/S300, setup and principle of operation, attachment to the machine, integration into the machine controller, programming of the S3000/S300 via CDS, commissioning, fault diagnosis and troubleshooting	Provision of training device and documents, certificate of participation, travel and accommodation costs of our trainer, if applicable	Classroom training	Maximum 8 trainees	2 d	S3000/S300 laser scanner – Basic training	1681916

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is "Sensor Intelligence."
