

Exchange units

Hassle-free and flexible

PRODUCT AND SYSTEM SUPPORT

SICK
Sensor Intelligence.

Product description

To minimize system downtime, replacement devices must be available as soon as possible. Exchange units, available on short notice, provide an alternative to repairs and replacement equipment stored on site. SICK quickly provides these devices as required without red tape, even before the components to be replaced arrive at the repair center. The exchange units are not only new, but also feature the latest technology. It is also possible to provide the components with pre-set, application-specific device parameters. With original replacement devices from SICK, these devices can be easily and flexibly adjusted to meet customer requirements.

At a glance

- Advance delivery of exchange units
- Detailed investigation of failure causes and advice about preventative measures (optional)

Your benefits

- No red tape: the focus is on troubleshooting, so customers receive replacement units quickly
- Short downtime: exchange units are quickly available
- Cost savings: cheaper than installing a new device
- Up-to-date: exchange units feature cutting edge technology
- Assurance: full warranty for faulty components
- Flexible device replacement: exchange units available on-site and/or upon request
- Customizable: shipped with application-specific device parameters (optional)

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
