

GM32 In-Situ Gas Analyzer Overview Training

SICK LifeTime Services Training Course

Description

Depending on your requirements, the GM32 can be configured simultaneously for measured components SO₂, NO, NO₂, NH₃, individually or in respective combinations. This course teaches the basic information needed for understanding the GM32 system layout, components, options, and basic theory. Participants will learn about the GM32 and its basic functions. They will also receive hands on experience (demonstration for online meeting) using the SOPAS Engineering Tool to connect with the GM32 for general operational purposes.

Objectives

- System and Operating Principle
- SOPAS Engineering Tool

Course Benefits

- Understand the system and operating principle.
- Explore the basic functions using SOPAS ET software.

GM32 In-Situ Gas Analyzer Overview Training

SICK LifeTime Services Training Course

Target Audience

Operators, Maintenance Staff,
Technicians in Measuring and Control

Prerequisites

None

Recommended Additional Course

GM32_GPP Maintenance
GM32 Advanced Maintenance
GPP32 Advanced Maintenance

Duration

2 Hours

Class Size

Maximum of 8

Where Offered

- Customer Site
- SICK Houston Training Center
- Online meeting

Format

Lecture, demonstration, hands-on

Testing Available

No

SICK Provides These Materials

- GM32 and GPP Probe for use during training session.
- Printed Training Books
- Electronic Operating Instructions

Logistics

The following must be made available for the duration of the training:

- A suitable training room/area
- A projector with screen for use with a PC
- PC/Laptop with SOPAS ET installed

For virtual training:

- PC with SOPAS installed prior to attending
- Online meeting tool installed (if necessary) prior to attending

Failure to have the customer required material and/or logistics available may lead to ineffective training and may result in the class not being able to achieve the described objectives and course benefits.
